Making your home equity work for you

Your doorway to
financial security.

Are you making the most of your home?

Whether it's for paying off your debt, expanding your business, or investing in your home with a new renovation, the opportunity is there for you to utilize your most valuable asset: your home. Our criteria is simple. If you have a home, we'll provide you with the money you need to reach your goals. Talk to one of our financial specialists today.

"Great service and my loan was approved within an hour"

Leslie V. ~ Edmonton, Alberta

Think of the things you could do with that money.

If you own a home, you are already successful.

- » Start your own business
- » Consolidate your debt into one low monthly payment (reduce your payments by as much as 2/3rds)
- » Take a family vacation
- » Enhance the value of your home with renovations
- » Get a new vehicle (or RV)
- » Get a float, some necessary cash to get you back on your feet... for any reason
- » Inject working capital into your business

We can get you the money you need to move forward in less than 7 business days. Approval has never been easier. Simply call us and we can tell you within the same day if you qualify. Let's face it, if you own a home you're already ahead of the game. In fact, most businesses get their start up money from the equity of their home.

It's time to get back to basics. You own your home and that's great. Do you know what else it's good for? Pure capital. You can use your equity to get a fresh start. You can build that kitchen you've always wanted, or buy the car you've always dreamed of. Or, take care of a few of those nagging debts. With a home equity loan, your financial goals are closer than you realize.

We are can-do, optimistic lenders, with our mind on the big picture. No matter what your credit, age or income, if you own your home, Alpine Credits can probably get you the money you need, whether it's \$25,000, \$100,000 or even \$250,000.

Be your own boss.

No one ever got rich working for someone else, but it takes money to make money. So if you own a home, you have an advantage. Using your home equity, you can generate the capital you need to get your business off the ground. We can get you the start up cash within a week. Just imagine, soon you could be calling the shots from your own corner office, with your name on the door, and a parking spot just for you.

Start doing renovations.

Your home is the most valuable thing that you own. So what do you do with your prized possession? Make it better. Invest in your asset. Invest in your future. A new kitchen, a new deck or a new paint job can increase the value of your property many times over. It is an investment you can enjoy now.

Consolidate your debt.

The recession has hit us all hard. Thousands of Canadians are drowning in debt, with credit cards maxed out and monthly interest in the thousands. If you own a home, consider yourself lucky. We can consolidate your debt into one easy payment that is far more manageable. In many cases we have been able to reduce people's monthly debt payments by as much as 2/3rds.
